

Stabilizer Ring

Replaces Cable Spiders

Fan Stack Stabilizer Ring

The fiberglass fan stack stabilizer ring is one of our most unique fiberglass products. Originally developed to be an inexpensive, effective alternative to cable spider systems, we discovered the added benefit of reducing vibration. If you are tired of spending money maintaining and replacing cables, then contact Midwest Cooling Towers and find how much you can save with a fan stack stabilizer ring.

- Replaces cable spider systems at 1/2 the cost
- Overlapping sections makes for a quick and easy installation
- No annual maintenance
- Long lasting, heavy-duty fiberglass construction
- Proven design with hundreds of installations
- Reduces vibration and increases fan stack stability
- Extends the life of the mechanical equipment
- Eliminates the risk of cables falling into the rotating mechanical equipment

OEM Replacement Parts

Midwest Cooling Towers, Inc. is a complete cooling tower supply company, offering a wide range of products to the cooling tower industry since 1987. Our large selection of quality OEM (Original Equipment Manufacturer) replacement parts are compatible with most models and manufacturers of cooling towers and they offer a high quality, reliable, low-cost alternative to expensive original equipment parts.
