

Fan Stacks

Fiberglass Fan Cylinders
for Cooling Towers

Here at Midwest Cooling Towers, we take great pride in manufacturing some of the finest fiberglass fan stacks available for cooling towers.

For over a decade we have been the fan stacks of choice by cooling tower manufacturers, utilities and industrial companies around the globe. They choose Midwest for our high quality, best value and unmatched customer service.

Midwest fan stacks are produced in our well equipped 40,000 square foot manufacturing facility utilizing four independent production lines. This gives us the capacity required to meet the delivery schedule of even the largest cooling tower projects.

Midwest's experienced manufacturing team employs a rigorous quality assurance and control program as well as advanced manufacturing techniques to bring you engineered solutions that consistently fit, direct from the factory.

OEM Replacement Parts

Midwest Cooling Towers is a complete cooling tower supply company, offering a wide range of products to the cooling tower industry since 1987. Our large selection of quality OEM (Original Equipment Manufacturer) replacement parts are compatible with most models and manufacturers of cooling towers and they offer a high quality, reliable, low-cost alternative to expensive original equipment parts.
