

New Cooling Towers

Design • Engineering • Fabrication • Installation

Midwest Towers supplies a wide range of cooling tower products and services to utilities, process and industrial customers and even other cooling tower companies around the world.

They have come to rely on the Midwest reputation for quality, value and superb customer service. They know Midwest consistently lives up to its own high standards on every job.

Services with you in mind

- Experienced engineering and design group
- Crossflow and counterflow designs
- Pre-engineered and custom designs
- Extensive manufacturing facilities
- Complete control of materials and labor
- Full-time construction staff
- Outstanding safety performance
- Best-value producer—no middlemen or subcontractors

Flexible Design Options

Our experienced engineering and design group can offer you the best value option for your particular cooling tower application, whether it is one of our pre-engineered cooling towers, or a custom designed solution.

- Crossflow and counterflow designs
- Many fill options to fit your application
- Wood and FRP structures
- Innovative modular panel design
- High value, pre-engineered solutions
- Custom designs for any application
- Custom cell sizes to fit existing basins

Quality & Service with Integrity

You can count on Midwest Towers' experience in cooling tower engineering, design, manufacturing, repair, and construction.

Our team will work with you through the design, budgeting, planning and installation of your project to make sure you get the best job for the best value.

- Project planning and budget preparation
- Thermal performance testing
- Cooling tower inspections
- Cooling tower optimization and upgrades
- Temporary cooling towers

Right from the Source

Midwest Towers is unique. You deal direct with the source. We design, engineer, manufacture, construct and service your project.

We do not use subcontractors. We accept the challenge of making sure your project is done right, on-time, and for the best value.

Outstanding Customer Service

The Midwest Performance Plus program is designed to offer you complete support for the proper maintenance, operation, and optimization of your new cooling tower.

The result is consistent thermal performance, reduced unplanned maintenance and emergency downtime and overall maintenance cost reduction.

- Cooling tower start-up & training services
- Performance testing
- Annual inspection services
- Maintenance planning & budgeting
- Scheduled maintenance services
- Emergency response plans & implementation

OEM Replacement Parts

Our large selection of quality OEM (Original Equipment Manufacturer) replacement parts are compatible with most models and manufacturers of cooling towers and they offer a high quality, reliable, low-cost alternative to expensive original equipment parts.

Call us today for more details on how we can be your best value cooling tower supplier.
