

# Distribution Box

Lightweight, non-corrosive FRP

The Midwest Towers water distribution box is designed, engineered and manufactured of strong, lightweight, non-corrosive fiberglass reinforced plastic. It is perfect for all crossflow cooling tower applications. It helps deliver a uniform flow of water from the flow control valves into the hot water basin of the cooling tower. This is essential for optimum thermal performance.

## OEM Replacement Parts

Midwest Towers is a complete cooling tower supply company, offering a wide range of products to the cooling tower industry since 1987. Our large selection of quality OEM (Original Equipment Manufacturer) replacement parts are compatible with most models and manufacturers of cooling towers and they offer a high quality, reliable, low-cost alternative to expensive original equipment parts.
